

ENVIRONMENTAL PLANNING STRATEGIES, INC.

About Environmental Planning Strategies, Inc.

☞ I am Judith Lee, President/Senior Analyst of Environmental Planning Strategies, Inc., and I have been providing proven quality service to the Federal Government, state governments, and their contractors for nearly 20 years.

☞ I bring over 30 years of experience developing and implementing environmental planning strategies for managing, preparing, and reviewing complex and often politically-charged EISs, EAs, and other environmental planning strategies and documents, such as Integrated Natural Resources Management Plans (INRMPs).

☞ I focus on quality, efficient, and dynamic compliance with the National Environmental Policy Act (NEPA) and integration of other laws.

☞ I am premier in the field of preparing useful, practical, cost-efficient, and dynamic project and programmatic planning and NEPA documents (NEPA Navigator).

☞ I provide support and expertise for all aspects of environmental planning, documentation, and review.

☞ I am nationally recognized for conducting quality cumulative and indirect impact analyses, and training others all aspects of effective, efficient, and practical NEPA and planning process using Facilitated Planning and Informed Facilitation.

☞ I support federal and state agencies and tribes in Integrated Federal Planning through initial planning and throughout environmental review.

Services Offered

Informed Facilitation and Integrated Federal Planning

Effectively guide your own technical staff through a systematic interdisciplinary process (the “Facilitated Planning Approach”) that focuses teams to develop clear and concise environmental decision packages. The self-correcting documentation and review process efficiently moves your team to a quality conclusion, substantially reducing planning and compliance costs. Integrated Federal Planning engages agencies in efficient planning and environmental review for alternative energy design, siting, and permitting.

Environmental Document Review

Using my proven “10-Step Systematic Document Review Worksheet” for a systematic approach to efficiently and effectively review environmental and NEPA documents for quality of analysis has been beneficial to many agencies. The documented results of the review also directly guide your agency through re-analysis of your planning and reformatting of your document, substantially saving time, conflict, and costs.

Conflict Resolution

I diagnose problems and improve your interdisciplinary team functions, relationships, effectiveness, and morale, emphasizing work-specific and clear purpose and need, member functions, and work-focused tasks, rather than “warm and fuzzy” personality typing.

Highly Tailored Training and Workshops

Focus on practical application of the systematic interdisciplinary processes using the “Facilitated Planning Approach” and document review using the “10-Step Systematic Document Review Worksheet”, that are nationally recognized for their quality and direct application to the workplace.

Tailored Training and Workshops: Powerful Planning Using NEPA and the Facilitated Planning Approach * Effective NEPA Document Review under Section 309 of the Clean Air Act for the Environmental Protection Agency * Conducting Effective NEPA Document Reviews for NEPA Practitioners and Managers * Conducting Quality Cumulative Impact Analyses under the National Environmental Policy Act (NEPA) * The National Environmental Policy Act: A Dialogue of Understanding * Powerful Planning Focusing on NEPA Purpose and Need * Developing and Implementing Effective NEPA Project and Program Planning * Powerful Integration of Section 404 of the Clean Water Act and NEPA
