

LOWER RISK - EMPOWER YOUR PROFESSIONALS TO MEET NEPA AND PLANNING NEEDS USING THE R-3 BPA

ENVIRONMENTAL
PLANNING STRATEGIES, INC.

ADDRESSING EADM FOR R-3

Environmental Planning and NEPA Consulting

- Effectively leads and guides resource interdisciplinary teams (IDTs) through unique systematic NEPA planning process (the Facilitated Planning Approach) that focuses teams to develop clear and concise environmental reviews and NEPA documentation for projects, programs, and special use permitting
- The self-correcting NEPA strategy, analysis, and documentation process efficiently moves ID teams through NEPA, substantially reducing costs
- Improves the functioning, relationships, effectiveness, and morale IDTs and organizations through critical thinking, while reducing the risk of conflict, using the power of NEPA
- Conducts quality and timely field reviews for ESA, NHPA, hydrology, soils, wildlife, and others
- Creates increased understanding of roles, agency policies, and face-to-face relationships to build positive associations

Highly Tailored NEPA Training

- Experience EPS' dynamic and practical workshops that are nationally recognized for quality and effectiveness
- Tap the power of NEPA for systematic interdisciplinary planning and environmental review using the Facilitated Planning Approach™
- Learn the "10-Step Systematic Document Review" process for quality issue-focused analyses and documentation in a reader-friendly format
- Substantially improve the interdisciplinary collaboration, analyses, and productivity of ID Teams

Environmental Document Review

- Improve the quality of the analyses and readability of NEPA documents prepared by your staff or others, substantially saving time and money and minimizing conflict

Conflict Resolution and Minimization

- Collaborate and resolve conflicts through understanding needs, issues, fears, and options

For over 30 years, ENVIRONMENTAL PLANNING STRATEGIES, INC. empowers federal, state, contractor and proponent professionals - Providing the highest quality, efficient and cost-effective NEPA and environmental planning, training, and document review, using the unique Facilitated Planning Approach

- Developing and implementing environmental planning strategies for managing, preparing, and reviewing complex and often politically-charged EISs, EAs, and other environmental review efforts, such as Integrated Natural Resource Management Plans (INRMPs) and agency land use planning
- Partnering with you for meeting your needs for quality, efficient, and dynamic compliance with NEPA and integration of other laws, technical design, and social and economic factors, with political savvy
- Using Informed Facilitation for leveraging the expertise of your professionals for preparing analytic, practical, cost-efficient, and dynamic project and programmatic planning and NEPA documents
- Providing support and expertise for all aspects of environmental planning, documentation, and review, including practical cumulative impact analyses
- Teaming with Robert Cunningham, Pathway Consulting Service, LLC, to provide consulting and training services for renewable energy, electric transmission, hydropower licensing, and projects requiring authorizing the use of federal lands through easements or special use permitting
- Experienced with many agencies – EPA, FHWA/DOT, USFS, USDA APHIS and RUS, DoD (all branches), USFWS, NMFS, BOEM
